# WUN + SDGs

## WUN Research Development Fund 2022: Focus Area

As the world confronts a multitude of global challenges, there is a pressing need for research to inform the path forward. WUN's capacity to assemble diverse teams of researchers gives it distinctive advantage in tackling some of the major emergent challenges in research areas where comparative analysis is important.

Following discussion with the WUN Global Challenge Steering Group Chairs Committee and the WUN Academic Advisory Group, we encourage proposals that address problems in one or more of the following areas, informed by the United Nations Sustainable Development Goals:

# WUN + SDGs

3 GOOD HEALTH  
AND WELL-BEING

ENSURE HEALTHY LIVES AND PROMOTE  
WELL-BEING FOR ALL AT ALL AGES

**Actions: SDG3 健康與福祉包含哪些細項目標 ( Targets ) ?**

Target 3.4: Reduce mortality from non-communicable diseases and **promote mental health**

Target 3.c: Increase health financing and support health workforce in developing countries

There is a joint ITU/WHO initiative "**Be Healthy Be Mobile**" which brings **mobile health services** to scale

# Extend my ongoing project
