Proposal Title:

Critiques:

1. Please describe the overall strengths and weaknesses of the proposal and/or comment on any other relevant issues in accordance with the following items.
 - (1) The novelty, originality, significance and integrity of research proposal.
 - (2) The academic achievements of the chief investigator and principal investigators, relating to the research subject proposed in particular.
 - (3) The degree of collaboration across sub-projects.
 - (4) The prospects of excellence in research to the international community with significant contributions upon the completion of research projects.

2. Please also comment briefly on each sub-project for strong and weak points. While it is probable that only part of the proposal would be funded, your view on whether a sub-project be a balanced team player in the proposal is essential.
