Principal Scientist Positions

Vilnius Gediminas Technical University (VILNIUS TECH), Lithuania, invites applications for **three Principal Scientist positions** within the newly established **Competence Centre for Autonomous, Remotely Operated and Connected Systems (ComARC)**.

Each Principal Scientist will head one of the Centre's R&D groups, broadly falling into these areas:

- **Electronic and RF Systems / Embedded AI Applications**
- **Microsystems / Components / Advanced Materials**
- **Uncrewed Platform Designs for Air, Ground & Sea Domains**

Successful candidates will lead the teams of approx. 15 researchers, shape the Centre's scientific agenda and manage research budgets of approx. €2.5M per group over 3 years.

We seek researchers with an established record of innovation and leadership potential. Early-career scientists aiming to build international visibility are welcome to apply.

Appointments begin September 2026 for an initial three-year term (renewable), annual gross salary is €110,000.

For more information visit: <https://vilniustech.lt/comarc-jobs> or write to comarc@vilniustech.lt.

Early submission is encouraged, applications will be reviewed on a rolling basis from January 2026 until all positions are filled.
